

## Updates

October 2016

### Updates - Regulation of Minister of Industry No. 68/M-IND/PER/9/2016 on Provisions on the Granting of Recommendations as Registered Importers of Mobile Phones, Handheld Computers and Tablet Computers

Only importers who have been determined as registered importers for mobile phones, handheld computers and tablet computers by the Minister of Trade can import those products. This regulation, which was issued on 1 September 2016 and became effective on the same day, defines what is meant by "mobile phones, handheld computers and tablet computers", and regulates the prior recommendation needed for the issuance of the determination as a registered importer.
