Updates – The 14th Economic Package - E-Commerce

On 10 November, the government announced the 14th economic package on e-commerce roadmap, which is to be further implemented by a presidential regulation.

In the announcement, the government explains that the presidential regulation on e-commerce roadmap that will be issued soon would cover 8 categories:

1. Funding
2. Taxation
3. Consumer protection
4. Education and human resources development
5. Logistics
6. Communication infrastructure
7. Cyber security
8. Supervisory board creation

The government has been preparing the e-commerce roadmap since December 2014. As the roadmap is meant to provide directions and strategic guidance to accelerate the implementation of the National Trade-Based Electronic System for 2016 - 2019, it will be necessary to wait for the presidential regulation to know how things will work.
