On 17 October, the Head of the Food and Drug Supervisory Agency issued an amendment of Regulation No. 13 of 2015 on Supervision of the Importation of Drug Ingredients and Food Ingredients into Indonesian Territory, which became effective on 20 October. This amendment regulation was issued to accommodate the current regulations on importation. The list of drug ingredients and food ingredients whose importation is regulated remains the same (attached as Attachment II). However, the amendment regulation introduces a new list of drug ingredients and food ingredients that can also be imported into Indonesia, which is attached as attachment IV. The amendment regulation also states that if the HS codes of:

- the drug ingredients and food ingredients under Attachment II; and
- the drug ingredients and food ingredients under Attachment IV

are different from those stipulated by the Customs Office, the HS codes stipulated by the Customs Office will prevail.
